FACTS CANNOT BE DOUBTED.

Let the Afflicted Read And Ponder! More than 500 persons in the City of Richmond, Va alone testify to the remarkable cures performed by CARTER'S SPANISH MIXTURE. THE great Spring Medicine and Purifier of the Blood is now used by hundreds of grateful patients, who testify daily to the remarkable cures performed by the greatest of all medicines, Carter's Spanish Mixture. Neuralgia, Rheumatism, Scrofula, Eruptions on the Skin, Liver Disease, Fo-

vers, Ulcers, Old Sores, Affections of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this great and inestimable remedy.

For all diseases of the Blood, nothing has yet been found ment are deposited. It was at the foot of the hill to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the Stomach, makes the Skin clear and healthy, and restores the Constitution enfeebled by disease or broken down by the excesses of youth to its

pristine vigor and strength.

For the Ladies, it is incomparably better than all the cosmetics ever used. A few doses of Carter's Spanish Mixture will remove all sallowness of complexion, bring the roses mantling to the cheek, give elasticity to the step, and improve the general health in a remarkable degree, beyond all the meticines ever heard of

icines ever heard of.

A large number of certificates of remarkable cures performed on persons residing in the city of Richmond, Va., by the use of Carter's Spanish Mixture, is the best evidence that there is no humbug about it. The press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the effects of this GREAT BLOOD PREMIMER.

COMPOUND SANATIVE PILLS.

THESE Pills are entirely Vegetable, and are a most su-L perior Medicine in the cure of all Bilious Complaints, Chills and Fever, Dyspepsia, Costiveness, Liver Complaint, Jaundice, Sick Headache, Scrofula, Salt Rheum, Fevers of all kinds, Loss of Appetite, Obstructed and painful Menstruall kinds, Loss of Appetite, Obstructed and painful Menstru-ation and all lingering diseases.

As a Female Medicine they act like a charm, and when taken according to the directions, they never fail to cure the worst cases of Piles, after all other remedies fail.

They purify the blood, equalize the circulation, restore the Liver, Kidneys, and other Secretory Organsto a healthy tone and action; and as an Anti-Billous Family Medicine they

have no equal. Price 25 cents per box. DR. STRONG'S

PECTORAL STOWAGH PILLS:
A remedy for Coughs, Colds, Catarrh, Bronchitis, Croup, Whooping Cough, Asthma, Consumption, Nervous Diseases, Dyspepsia. Costiveness, Eryspelas, Diseases of the Heart, Inflamation and Pain in the Chest, Back and Side, and all diseases arising from a deranged state of the Stomach, and to relieve the distress and bad feeling from eating too hearty food, in weak and dyspeptic habits, WARRANTED TO BE PURELY VEGETABLE

These Pills act as an Expectorant, Tonic, and Aperient.— One 25 cent box possesses three times more power to cure diseases than a one dollar bottle of any of the Syrups, Balsams, or Sarasparillas that was ever made, and a simple trial of only one box will prove this important truth.

They promote Expectoration, Loosen the Phlegm, and Clear the Lungs and other Secretory Organs of all morbid matter, and there is not another remedy in the whole Materia

Medica capable of imparting such healing properties to the Lungs and Vital Organs as these Pills. They Cure Costiveess, produce a good, regular Appetite, and Strengthen the ystem. Price 25 cents per box, containing 25 doses of Medicine. Call on the Agents who sell the Pills, and get the Planter's Almanae gratis, giving full particulars and certificates Both kinds of the above named Pills are for sale in Wil-

MR. HOTCHESON—

Dear Sir:—I feel it to be my duty to say a word upon the merits of your Celebrated Ointment. I am constrained, from experience, to pronounce it the best Healing and Pain Killing Agent I have even seen employed. A few months since, my little son got one of his legs broken, after which he was carried a considerable distance, which caused examination of his Engines, assuring them they shall be fully equal to what is represented, and regard being had to material and workmanship, and plan of construction inferior to none.

He also continues to manufacture his interval.

Washington Union Vashon, the Rich Colored Barber.

The newspapers announce the death of John B. Vashon, the colored barber of Pittsburgh, who died at the railroad station in that city, whilst about to start for Philadelphia to take his seat in the convention of the soldiers of the war of 1812. Vashon was a light mulatto, the son of a Virginia planter of the same name. He died worth two hundred thousand dollars. One of his sons is a lawyer in New York. The people of Pittsburgh are indebted to him for the first public baths established in that city.— Until the Supreme Court of Pennsylvania decided that people of color were not legal voters, Vashon enjoyed the right of suffrage. In 1830 he supported a gentleman for the Assembly, upon the ground that he was a "fashionable man," the meaning of which was that he bought his soap at Vashon's shop.

On one occasion Vashon visited the Falls of Niagara, and there met with a Pittsburgh acquaintance, who introduced him to a friend from Rochester, New York, as "Col. Vashon of the Mexican Army."-Shortly afterwards Vashon met this gentleman at Rochester, who paid him great attention, introduced him to the leading notabilities of that city, and the Pittsburgh barber was for some days the lion of the place. Vashon kept his own counsel, and on his return to Pittsburgh related the story with great glee, always winding up with the remark, "See what a thing this prejudice of color is! As long as they thought me a Mexican colonel I was good enough company for anybody !"

Vashon considered bimself as a sort of Western rival of the late Thomas S. Anners, of this city, whom

The temperature along the Atlantic coast is said to be modified to a very great extent by the presence of ice-bergs floating down from the higher Northern latitudes. These have been exceedingly numerous this spring, indeed so much so as to render the passage to and from Europe rather dangerous. The prevalence of South winds, early in the season, may have freed these huge masses, while, by the change of wind to the North, they have been blown down along our coast. Such appears to be the only way of accounting for the peculiarity of the season.

will involve the ruin of the republic.

If the general government possessed the power to such as policy or necessity might impose. Every meritorious object would have a right to demand it, and to such a refusal could only be justified by inability. Every local object, for which local provision is now made, would press for support upon the general government, and would create demands upon it overthrown? For what? nue must be enlarged, and the general government, by the adoption of the policy, would levy taxes upon the people of the Union for the support of the local interests of the States. If their expenditures should of no avail. be unequally apportioned, the injustice of taxing a part for the benefit of others would soon cause the system to be overthrown. If they were equally distributed it would be but a usurpation of the function of the States unsustained even by the plea of economy. The patronage would be fatal to the independence of the States; with patronage comes the power to control, as consequence follows upon cause. If the policy is embarked in, what shall be its limits? Washington, March 19, 1854 MESSRS. MORTIMER & MOWBRAY-Dear Sirs .- My little girl contracted lameness, and began to lean one side, during the early part of last Summer, but I thought it was from a habit she had acquired of standing on the left foot. Several persons teld me that it was hip disease, which I was unwilcians in our city, who said that her spine was affected, and prescribed accordingly. The medicine being of no service to her, he then pronounced it hip disease, and said she would ertised and celebrated Liniment, which was said to be beneficial in such cases, and continued it until the 10th of Feb. ruary, when I changed it for Hartshorn Liniment, which I

used until the 18th.

Her sufferings becoming more acute, I returned again to the first-mentioned Liniment, but she still continued to grow worse, and could not move or be moved without the most intense suffering. I then bought a bottle of HAMPTON'S VEGETABLE TINCTURE, and on the third day after that she threw her hands over her head and exclaimed. "Oh see, I can stand by myself." She had not been able to stand as well as before taken sick. Respectfully, H. W. FRANKLAND,

NEW YORK, March 29 .- The steamer Franklin ar- Hospital for Wilmington-Hospital Fund of the Go- James. vernment-Comparative Expenditure for the West and the Atlantic Sea-Board -- Commerce of Wilmington-Seamen's Friend Society.

MESSRS. EDITORS: - I stated in my Report our need of more funds, not only for the establishment of a Home and Bethel, but because we should be under the necessity of providing for a large proportion It is rumored that the Czar has ordered his troops of all the Seamen connected with the commerce of Wilmington. This will be obvious from the following facts: 1. We have no Hospital at all for the 3. There is no probability that we shall obtain a Hospital soon, and until we do, seamen entitled to Hospital relief must go to the Home of the Society, or to houses of a low character. There is tal, and therefore we should state that there is not one more convenient than Charleston. S C., or Norfolk. Va. There is a Hospital in a distant part of North Carolina, but not accessible to our seamen --There never has been, and probably never will be a sailor sent there from Wilmington. It was designed for the commerce of New-Berne, Washington, and other commercial towns in the Eastern part of the wharf here to-day. I have only time to transmit the markets. She brings three days later news than that brought by the Franklin, having sailed on the 18th of the Government, to be in a state of vassalage to of the Government, to be in a state of vassalage to finy Swedish ducats." South Carolina or Virginia. But do we need a Hospital? Are we entitled to it? Have proper efforts of it? Before answering these questions it is important to make a brief statement as to the general Hospital Fund of the Government, the expenditures

ry for 1852-'3. The receipts commenced in 1852, and there was the year ending 30th June, 1852, \$132,573 55. The whole amount collected from Seamen \$3,219,506 44. \$307,638 78. This, however, must include an ap- who went to seek an elemosynary passage. priation from Congress. Of the amount expended to establish Hospitals, there has been received for the sea board of the Atlantic, from Key West to Maine. \$108.035 ; for Mobile \$49,830 ; for New Orleans \$134,696, and for San Francisco \$180,000, but for Hospitals for the so called seamen employed in navigating the Western Rivers and Lakes the enormous and unequal sum of \$456,753 20. The amount for Hospitals at Napoleon, Paducah and Chicago alone is \$133,587 00, while Charleston, Key West, Norfolk and Ocracoke have received only \$76,835 .-We would also state that the Hospital for Ocracoke, N. C., was secured in 1842, at the time that Hospitals were obtained for Cleaveland, Pittsburg, Louisville, Paducah, St. Louis, Nopoleon and Natchez, which cost the sum of \$331,445 00. It was under these circumstances that the sum of \$10,000, the first and last appropriation since the organization of the Government, was log-rolled out of the Treasury of the United States for the benefit of the sea-grave-yard of our storm-beaten coast, and \$15,000 for Mobile, thus making \$25,000 that year for the whole seaboard of America. These statistics are from the statement of the amount of marine Hospital money collected annually from seamen under the act of July Washington, March 29 .- Immense excitement has 16, 1,798, and of the appropriations by Congress for

New York, and the Hon. John C. Breekenridge, of in some of their principal sea ports, and in others, dred and ninety-six thousand five hundred and twensuitable accommodations have been provided through private munificence, and aid from the municipal authorities, and arrangements are frequently made by the Government with these institutions to take care of the sick seamen. Such arrangements exist at New York, Philadelphia, Cincinnati, and other points. This will account for there being no U. S. Marine Hospitals at some of the large sea ports of the coun-But we have neither a Hospital, Pest house, even a respectable boarding house where such an arrangement can be made at the present rates of compensation allowed by the Government.

To appreciate the character of our claim for a of Wilmington. We can only select a few of the leading articles. Our extracts are from the Journal. There were exported for the year ending 31st December, 1853: 115,174 barrels Sririts Turpentine: 73.282 do. Crude Turpentine; 380,459 do. Rosia 26,130 do Tar; 7,823 do Pitch; 483 do Rosin Oil; 1.115,798 feet P P Timber; 38,167,950 feet P P Lumber; 69,811 bushels Pea Nuts; 7,515 bales Cotton; 1,9761 casks Rice; 102,917 bushels Rough Rice. lion of dollars." From this estimate the aggregate amount cannot be much less than five millions. The duties on imports from 1st January, 1853 are \$205,-065,65. Wilmington is not only much the largest sea port in N. C., but in point of trade inferior to but few on the Southern coast There are only four ports South of the Delaware, that have as large a numher of vessels connected with Foreign commerce .--The number of vessels, and American tonnage in Foreign trade being greater than from Savannah, nearly equal to both Norfolk and Richmond, and exceeding that of all the Commercial ports of North

> An Enormous Epition - The Philadelphia Ledger publishes from its books a list of its circulation for every day of the present year. The lowest edition printed was fifty-one thousand three hundred and sixty, on the 12th of January, and the highest, sixty thousand, on Saturday, the 4th of March. This is an enormous circulation, and exceeds that of any other paper in the world. The London Times prints about 40,000 daily, the Paris Constitutionel 25,000, and the New York Herald claims over 50,000. The Ledger's statement shows that from January 2d to the 18th inst., inclusive, about two regular months and a half, February being a short month, there have been consumed upon the regular daily editions of the Ledger, seven thousand four hundred and ninety-two and three fourths reams of paper, making at the rate off the water. of over seventy thousand reams of paper per annum. It shows the aggregate of the daily editions for the ty, or exceeding at the rate of seventeen millions of mense edition, and it concludes its statement with an apt comparison of these rapid machines with the old mode of printing with hand presses:

By the old mode of printing with a hand-press, it would have taken, at ten tokens per day, which is pretty good work for ten hours, fifty days to have rinted this edition; and to have printed only during the five or six hours, within which time the edition of the Ledger ought to be printed, it would have taken nearly one hundred days."

Upon her hilltops begin to smoke the wealth-achieving furnace: buzz of the cotton spindle mingles with the whisperings of her clear blue streams; the "iron horse" is far and wide circulating her products: her heretofore isolated population is beginning to feel that a market is created for "home industry," and that Georgia could, if the demand was made make her shipment of unginned cotton as obsolete as is now cotton in the seed. What cares such a State whether a foreign country enriches itself by spinning her cotton? The staple is produced by the wearing labor of the muscles of men, defiant of malaria, and regardless of fever breeding heat—the easier, and quadruply more profitable work of manufacturing. by the never tiring engine, and the sinews of the spindle and loom, is at her command.
